

## **Volume 3 - System Design, Vue/Nuxt & React**

# Real-time Dashboard

**Question:** Design question #1

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #2

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #3

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #4

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #5

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #6

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #7

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #8

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #9

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #10

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #11

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #12

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #13

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #14

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #15

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #16

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #17

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #18

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #19

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

**Question:** Design question #20

**Answer:** Discuss WebSockets, caching, pagination, aggregation, charts, retry logic, observability, and scalability tradeoffs.

# Vue/Nuxt

**Question:** Nuxt SSR question #1

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #2

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #3

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #4

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #5

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #6

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #7

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #8

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #9

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #10

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #11

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #12

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #13

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #14

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #15

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #16

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #17

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #18

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #19

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

**Question:** Nuxt SSR question #20

**Answer:** Explain SSR, hydration, useAsyncData, caching, route middleware, and Nitro server architecture.

# React

**Question:** React architecture question #1

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #2

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #3

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #4

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #5

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #6

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #7

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #8

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #9

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #10

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #11

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #12

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #13

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #14

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #15

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #16

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #17

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #18

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #19

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.

**Question:** React architecture question #20

**Answer:** Discuss hooks, memoization, Suspense, Server Components, hydration, and rendering performance.
